Dear Colleague

**Release of Provisional 2018/19 KS1 Data in Analyse School Performance (ASP)**

I am pleased to inform you that the DfE have released provisional KS1 data in ASP. This follows the early October release of provisional KS2 data.

Child looked after (CLA) data is not currently available, so the DfE are not publishing breakdowns of data such as disadvantaged which appeared previously. This information will be included in the revised release scheduled for December 2019 when any amendments made to your school's data will be reflected.

Yours sincerely

Ian Meredith
